Professional Education Unit
Tel: 636-4125 Ext. 3015, 663-3138/
9718 Ext. 4028
Email: ict.series@utt.edu.tt

Prerequisite:
Should be a Graduate student or higher.

*Note - Early registration is advised.
Total number is limited. The University reserves the right to schedule courses based on subscription.*

OUTLINE:

Introduction to Research trains the participants on how to start a research project either in M.Sc. or M.Phil. or Ph.D. or any other research project taken up by Students or Professionals irrespective of their field of specialization (Engineering/ Arts/ Social Sciences/Science/Law etc.). Literature survey being the most critical part of any research project, this course provides the knowledge about the process of how to start and complete literature survey in stipulated time. In addition, the course also gears up the participants for effective technical communication - both oral and written communication.

OBJECTIVES:

On completion of this course, the participants will be prepared for research by developing skills to:

- Identify an area of research.
- Identify different methods to go about researching in a particular area.
- Read research papers.
- Make technical presentations of the chosen research papers.
- Write a critical review on a research paper.
- Develop the ability to work independently in a chosen research area.
- Write Literature Survey in the chosen field of research.
