

THE UNIVERSITY OF TRINIDAD AND TOBAGO

PROFESSIONAL EDUCATION UNIT (PEU) PROFESSIONAL DEVELOPMENT SERIES

INTRODUCTORY AUTOCAD DRAFTING FOR THE UTILITIES

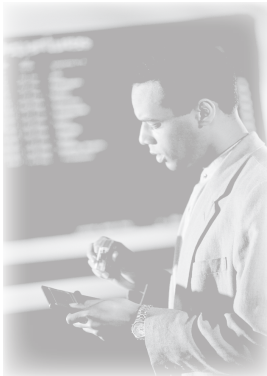

OUTLINE:

This course is intended for persons who have never used AutoCAD. It is a compact, direct and practical introduction to the programme. First, it introduces the basic AutoCAD commands and skills needed to get started and feel comfortable using the programme as the participants become more comfortable, it builds upon the basics, many of the new and powerful features are introduced. This course is organized to lead participants step by step from the basics to the production of industry standard dimensional drawings.

OBJECTIVES:

At the end of the course, participants should be better able to:

- Create, open and save drawings.
- Enter distances in drawings and understanding AutoCAD's coordinate systems.
- Draw AutoCAD objects including- Lines, Polygons, Circles, Arcs, Donuts, Points and Ellipses.
- Adjust the size of an AutoCAD drawing.
- Move accurately to existing drawing entities with Object Snap.
- Align drawing views with Polar and Object Snap Tracking.
- Select AutoCAD drawing objects for editing.
- Edit AutoCAD objects including- Copy, Move, Erase, Fillet, Array, Mirror and Rotate commands.
- Correct Errors in an AutoCAD drawing.
- Control the display of AutoCAD objects with the Zoom and Pan commands.
- Work with Multiple Tiled Viewports.

DURATION:

FEBRUARY 8 - 12, 2010
Monday - Friday (8:00 am - 4:00 pm)

VENUE:

The University of Trinidad and Tobago
Pasea Campus,
Corner Churchill Roosevelt Highway &
Pasea Main Road, Tunapuna.

FEE:

TT\$3,800.00 inclusive of course material and lunch.

CERTIFICATION:

Participants will be awarded a Certificate of Achievement.

DESIGNED FOR:

Engineers, Planners, Students, Technicians, Utility and Drafting Personnel.
