UTT'S VISION

To be the premier university dedicated to the socioeconomic transformation of Trinidad and Tobago, with global reach and international standing.

UTT'S MISSION

To contribute to the sustainable and entrepreneurial development of society through the advancement and application of research, dissemination of knowledge and public engagement in our pursuit to produce work-ready graduates, innovators and critical thinkers.

THE NATIONAL ANTHEM
of the Republic of Trinidad and Tobago

Forged from the love of liberty
In the fires of hope and prayer
With boundless faith in our destiny
We solemnly declare:
Side by side we stand
Islands of the blue Caribbean sea,
This our native land
We pledge our lives to thee.
Here every creed and race find an equal place,
And may God bless our nation
Here every creed and race find an equal place,
And may God bless our nation.

GRADUATION MESSAGE

Her Excellency **PAULA-MAE WEEKES, O.R.T.T.**
President of the Republic of Trinidad and Tobago
and Chancellor, UTT

Congratulations, UTT Class of 2020! You have arrived at a significant, hard-won and well-deserved juncture in your personal and academic lives. After meticulous preparation, countless hours of study, much sacrifice and the inevitable frustrations, you can now boast of being graduates of Trinidad and Tobago's indigenous university.

The final leg of your educational journey with UTT would undoubtedly have been quite different from what you had anticipated. The COVID-19 pandemic disrupted and confused your everyday routines, causing teaching to be delivered exclusively online, assessment strategies modified, social gatherings cancelled, and most recently, your graduation ceremony postponed. As saddened or disappointed as some of you may be at the unwelcome change of course in your last few months, you have nevertheless arrived at your desired endgame. Take great pride in your perseverance and resilience in the face of all odds. The resourcefulness, creativity, flexibility, and diligence nurtured and developed along your UTT journey no doubt played a major role in your ability to overcome your challenges and will continue to serve you well in charting the course ahead. Many of you may be apprehensive about the future, given the effect of the pandemic on the economy and the world of work. New norms are evolving daily, with changing employment patterns and a renewed emphasis and reliance on automation and technological systems.

I am confident that the training you have received at UTT has equipped you not only to fill the gaps that have emerged as a result of this crisis, but also to carve your own paths where there are none. Now more than ever, our nation needs intrepid and forward-thinking individuals who can engineer lasting and relevant solutions to present and potential crises. As beneficiaries of a comprehensive education, you have been well prepared for the future.

Unlike justice, a pleasure delayed is not a pleasure denied, and as Chancellor of UTT I encourage you to look forward with eager anticipation to the customary pomp and circumstance of a commencement ceremony sometime in the future. But for now, bask in the glow and be immeasurably proud of your stellar accomplishments. I congratulate you wholeheartedly on achieving this momentous milestone and extend unreserved wishes for a bright, prosperous and healthy future!

GRADUATION MESSAGE

Professor **CLEMENT A. C. IMBERT**
Chairman, Board of Governors, UTT

On behalf of the Board of Governors of The University of Trinidad and Tobago (UTT), I am thrilled to extend heartfelt congratulations to the Graduating Class of 2020! Occasions such as these are filled with such optimism as we celebrate with friends and family, who no doubt, provided much support over the years.

The last few months have been challenging to say the least, and such challenges will compel you to strive for excellence in your future endeavours. COVID-19 took the world by surprise and as the world grapples to stay afloat, I encourage you to be unwavering notwithstanding the many changes around you. Continue to educate yourselves. The Coronavirus has reminded us how vital human interaction is, as well as staying connected to those who mean the most to us. The pandemic has proven that change is truly the only constant factor in this world. Therefore, I urge you to be resilient in the face of all adversities you may encounter.

Graduates, as you receive your instruments of academic achievement, it marks the culmination of years of sacrifice, discipline and commitment in your tertiary education undertakings. Graduations, in many ways, position you at an intersection with various options. Most of you, no doubt, would be focused on obtaining viable employment in accordance with educational qualifications received. You may also wish to leap into further studies while a number of you are ready to embark on entrepreneurial pursuits.

It is my hope that you continue to meaningfully contribute to Trinidad and Tobago by increasing the human capacity in fundamental areas of national growth. As alumni of the University, we encourage you to support your alma mater, the literal English meaning of the term being “nourishing mother”, an appropriate expression for the institution that provided you with intellectual nourishment and should continue to do so to you and so many others.

The University’s programme offerings, coupled with robust industry relationships, continue to validate our status as the national University of Trinidad and Tobago. UTT maintains its mission at the forefront of its operations. The University also ensures that our students adhere to, and are committed to, that mission which states, “To contribute to the sustainable and entrepreneurial development of society through the advancement and application of research, dissemination of knowledge and public engagement in our pursuit to produce work-ready graduates, innovators and critical thinkers.”

Finally, I salute you once again on achieving this milestone and urge you to keep moving forward and upward, as you continue to pursue excellence in all that you do and I wish you immense success in all your future endeavours.

GRADUATION MESSAGE

Professor **PRAKASH PERSAD**
President, UTT

It is with great pleasure that I convey sincere congratulations to the graduating class of 2020. You persevered and have now successfully joined the ranks of those whose achievements continue to echo within the walls of this esteemed institution.

The last few months of your final semester were no doubt filled with challenges different from the norm. You not only had late study nights, assessment requirements to fulfil and deadlines to maintain, but you were also faced with the novel situation of existing and excelling during a pandemic. This experience, together with the quality education offered at UTT, has no doubt helped bolster your growth as an individual, equipping you with skills and knowledge to face a myriad of challenges in the newly established world. It is with great confidence I affirm you are highly prepared to face what the world may bring; you have all that you need to succeed.

Your journey as a student would have featured ups and downs, synonymous with the realities of everyday life. In fact, it may be wise to prepare yourself for the possible professional inertia that you may experience post-graduation, due to the current socio-economic landscape. Let this not hinder you from fostering a tenacious mindset, one which persists in spite of setbacks, with the audacity of sheer determination.

As you go into the world with your newly-minted accomplishments, may you curate your own definition of success, aligned with the mission of UTT and the development of our country. May your knowledge serve to chart new developments to enhance all of our futures. May your minds nurture the innovation necessary to propel us collectively to new heights. May you espouse the beliefs needed to overcome and flourish in the face of adversity. May you celebrate each goal you accomplish with gratitude and joy. May all your achievements continue giving you zest for life.

Today, I am proud of each of your successes in spite of challenging circumstances and even prouder to call you a graduate of the national University. With sincerity, I hope you celebrate this milestone and may you serve to inspire others with your astounding ability to triumph in the face of unmitigated adversity.

TOTAL NUMBER OF GRADUANDS: 1,672

The **UNIVERSITY MACE**

Traditionally, a mace is a staff carried by a dignitary as an ensign of individual or institutional authority and prestige. The University of Trinidad and Tobago's Mace represents the standing of the University and the power of higher education not only in shaping lives but also in improving society.

The **MORICHE PALM**

Called the “tree of life” by the Tamanac indigenous people, the Moriche Palm was first documented in 1595 by English navigator and poet Sir Walter Raleigh (1552-1618) when he explored the coast of Trinidad. Later, Swedish naturalist Carl Linnaeus named the palm Mauritia flexuosa. This elegant and majestic tree can grow to a height of 35 metres, making it an easy focal point in its natural setting.

The Moriche Palm is integral to the natural setting of Tamana InTech Park, the site of UTT’s Signature Campus. The image of the Moriche Palm is prominently displayed on the exterior of all rebranded UTT campuses.

2020

PRESENTATION of GRADUATES

GRADUATION ROBES

UTT's graduands are outfitted with robes that are cut along traditional lines with tucks and tiny buttons along the bell-shaped sleeves. The colours have been chosen to reflect the Caribbean heritage and aesthetic.

Recipients of UTT's Certificate programmes are enrobed in **BURGUNDY**, boldly representing the start of their journey in tertiary education.

Diploma graduands use **BLUE** - the colour of the water that surrounds our twin-island Republic.

Students receiving the Bachelor's degree are enrobed in **GREEN**, which signifies the lush foliage that grows abundantly in Trinidad and Tobago.

Those awarded the Master's degree wear **RED**; a colour that represents the vivacity of our people.

Graduates receiving Ph.D. degrees are adorned in **BLACK**, which is reminiscent of the richness of the soil that anchors us as we grow in strength as a nation.

All graduation robes are adorned with the Moriche Palm on the left shoulder and the National Flag of Trinidad and Tobago on the right shoulder.

UTT VALEDICTORIAN

Ms. DENEIL WEBSTER

Bachelor of Education with specialisation in Social Studies - Sociology

Born and raised in the small community of Todds Road in Central Trinidad, Ms. Deneil Webster is the sixth of seven children. Deneil places a high value on positive family relationships and champions her family as her greatest support system, and defines it as God's greatest gift afforded to mankind.

While pursuing a Bachelor of Education with specialisation in Social Studies - Sociology from The University of Trinidad and Tobago (UTT), Deneil was involved in several extra-curricular activities, including serving as Secretary for the Valsayn Chapter of the UTT Student Guild from 2018 to 2019, as well as a member in the Student Actioning Change Movement and UTT Hikers. In addition to her Bachelor of Education degree, she also holds a Bachelor of Social Work degree and is currently pursuing a Master's Degree in Child and Youth Studies.

Within her community Deneil serves as President and founder of the Todds Road Cultural Committee, hosting several cultural and charitable events throughout the year. She also established the I Concept Movement, an online platform used to promote self-development and a positive self-image. Her most recent work is a youth-focused social intervention programme, Positive Space Creators, which seeks to promote the holistic development of at-risk youth. At church she is a youth minister, worship leader and Sunday School teacher. On her down time, she enjoys Netflix binging and reading romance novels.

Deneil stands by the philosophy that everyone deserves a second chance, which stems from personal experiences during her spiritual journey. She considers it her duty to help others and her aim in life is to fulfil her God given purpose to which she has equated her academic and professional goals.

UTT VALEDICTORIAN

Mr. JAIVON ROBERTS

Bachelor of Science in Aircraft Maintenance and Management with specialisation in Avionics

Mr. Jaivon Roberts, a Bachelor of Science (B.Sc.) in Aircraft Maintenance and Management graduand at UTT, is the eldest of four children and has always taken the responsibility to set precedent for his younger siblings. At the tender age of four, he decided he would pursue a career in aviation, and to date his perennial focus has seen him achieve this goal.

Jaivon's alma maters include Tunapuna Secondary School and St. Mary's College. While at the latter he was a member of the First XI Cricket team and the College's Management Team where he oversaw the operations of the College's bookstore and coordinated the execution of events. He has had a history of excellence during his academic career, holding the title of prefect, representing his schools in cricket, and receiving several awards including the principal's award for outstanding performance.

After completing his A-Level studies, Jaivon gained employment at a leading financial institution but pivoted his career after completing a Diploma in Project Management and proceeded to work as a Project Coordinator for almost three years. It was during this time that Jaivon discovered UTT's B.Sc. in Aircraft Maintenance and Management and without hesitation, left Project Management behind to pursue his childhood goal.

Jaivon currently holds the position of Assistant Aircraft Technician at Caribbean Airlines Limited and further demonstrates his entrepreneurial spirit through his private company, Imperium Air Services Ltd., which was founded during the country's initial COVID-19 stay at home orders. The company specialises in providing pristine indoor air quality.

Ph.D. in PETROLEUM ENGINEERING

Mr. NEAL ANTHONY ALLEYNE

Mr. Neal Anthony Alleyne graduated with a Bachelor of Science in Petroleum Engineering from the Imperial College of London in 1974 and joined Amoco Trinidad Oil Company, a predecessor company of bpTT. Over a career that spanned thirty years, he worked at Amoco and BP locations in Trinidad and in the USA and was involved in operations in Trinidad, USA, Japan, Indonesia and Australia. During this period, he also found the time to complete a Diploma in Management Studies at Tthe University of the West Indies (UWI) in 1980 and a Master of Business Administration degree at the University of Houston in 1999. While the majority of his time at Amoco and BP was spent in Petroleum Engineering roles, Neal also worked in the Production Department, the Commercial Unit and the Change Management Unit. His last role at bpTT was as Vice President of Organisational Transformation.

Neal joined The University of Trinidad and Tobago (UTT) in 2004 and was instrumental in the establishment of Petroleum Engineering programmes. Since completing his Master of Science in Petroleum Engineering at the University of Texas at Austin in 2008, Neal has been involved in teaching and research. His interest in natural gas stretches back to his time at Amoco, when as a young engineer in the late 1970s, he was part of a study on the long term utilisation of natural gas. This interest continued in his Master of Science thesis on the monetisation of natural gas through liquefied natural gas (LNG) and culminated in his doctoral research on deep water gas field developments.

Neal is a Chartered Petroleum Engineer, a member of the Energy Institute (UK) and has been a member of the Society of Petroleum Engineers (SPE) for forty-seven (47) years. He has served the Trinidad and Tobago chapter of the SPE in a number of important roles including Chairman. He is passionate about the development of young people, tomorrow’s leaders, as they are the future of the nation.

Ph.D. in EDUCATION

Ms. MELANIE-MARIE JEANVILLE-HAYWOOD

Melanie-Marie Haywood is an educator with a passion for academic development, and quality in education. She has attained professional and academic qualifications in a variety of education studies, including Curriculum & Instruction, and Higher Education and is a recognised Senior Fellow of the Higher Education Academy (SFHEA). She has worked across the field of education having worked in primary, secondary, and Higher Education in the Caribbean and the UK. She has specialised in quality enhancement of Higher Education provision in Trinidad and the UK for a number of years working as a consultant, and senior administrator in academia.

She started a consultancy company in 2015 that has been able to facilitate the bridging of some gaps identified in Higher Educations in Trinidad and Tobago - both at the individual student level, and the institutional level. She currently serves as the Head of Library, Learning & Teaching Innovation at SOAS, University of London, where she is responsible for the support and enhancement of teaching and learning across the institution, both culturally and strategically. She has immersed herself in Black Studies in the UK working with NGOs, Universities, and other research institutions for the development of a stronger education system that benefits the Black population in the UK.

Ph.D. in EDUCATION

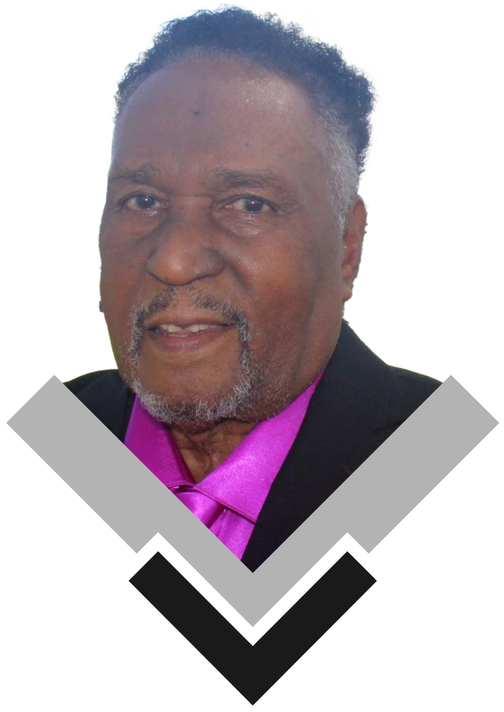

Ms. **ADITA MAHARAJ**

Adita Maharaj has been in the field of education since 1991, commencing her career in the primary school system and then entering the Ministry of Education, Early Childhood Care and Education (ECCE) Division in 2004 as an ECCE Curriculum Programme Facilitator. She was promoted to ECCE Curriculum Programme Coordinator in 2013 in the ECCE Division and thereafter, Assistant Manager, ECCE in the School Supervision and Management Division. Ms. Maharaj's tertiary level experience began in 2010 where she was offered a part time position as instructor and supervisor at The University of the West Indies Open Campus.

Adita is currently a Senior Instructor, ECCE in the Centre for Education Programmes, at The University of Trinidad & Tobago (UTT). She has worked at the University since 2012 as a part-time instructor, joining the fulltime faculty in September 2016. Ms. Maharaj is a holder of a Teachers' Diploma, Certificate in Education (ECCE), Bachelor of Education (ECCE) and Master of Education (Literacy Instruction) obtained from The University of the West Indies (UWI). She successfully defended her Doctor of Philosophy research in Education from The University of Trinidad and Tobago with her core areas of research being early childhood care and education, literacy and the use of technology in education.

HONORARY DOCTOR
of HUMANE LETTERS

Mr. EDWARD "EDDIE" HART

Known affectionately as "Eddie", or more respectfully "Mr. Eddie", Edward George Phillip Hart is the epitome of humility, but he is deserving of the title of his biography "Fit for a King" where his biographer writes, in verse, that "Some inherit their throne, But others, through sacrifice, and sheer force of persuasion, Forge their place deep within our heart, And for this reason... They shall always be remembered". For his remarkable contributions to sport, culture, politics and community service, Eddie, known to many of his close friends as The King, will always be remembered.

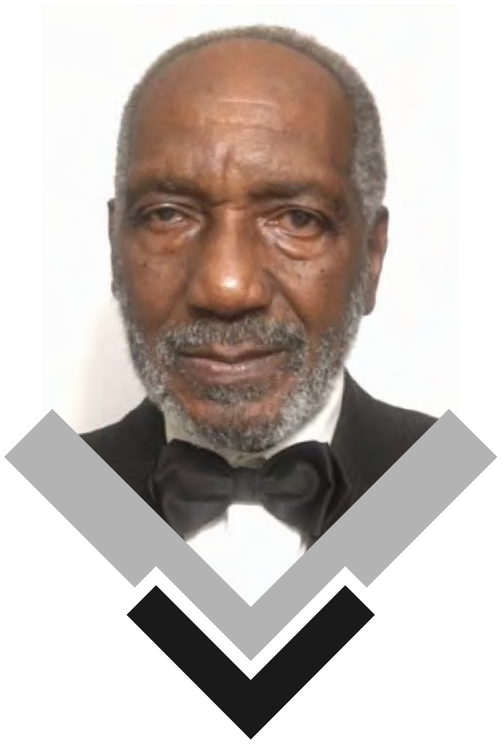

Eddie was an all-round sportsman, excelling in cricket, football, table tennis and even baseball. He represented North Trinidad in cricket and was good enough to be called for trials for the national cricket team, played football and hockey for Malvern, a champion club in Port of Spain in those days. He also excelled as a national coach and coach to many champion reams including his own longstanding team, the unlikely winners of the National League Cup title in 1982. He also had the distinction of being assistant coach of the National Under 19 team and was a regional coordinator for the Village Olympics. However, his crowning glory is founder of the Eddie Hart League for Football, which has no equal nationally, and is going strong for over 50 years. It gave birth to the formation of the first juvenile league in the country (under 14), among its many junior and senior divisions, and has served as a cradle for talent ever since, the majority of the national team at the 2006 World Cup having started their careers in the league.

Eddie has been involved in all aspects of culture representing Tacarigua in the Best Village competition and as a key member of the famous All Stars Steel Orchestra for over 60 years, having played for several bands for many years previously. He never sought political office but he was asked to serve and served as the MP for the constituency of Tunapuna for three terms. He is known as the People's Politician for his dedicated service to the community, in and out of office.

The large playing fields opposite to where he has lived all his life are appropriately called the Eddie Hart Grounds, arguably the most popular in East Trinidad.

HONORARY DOCTOR *of* HUMANE LETTERS

Mr. LINCOLN PHILLIPS

Lincoln Phillips is one of the nation's football pioneers, with dedicated involvement in the sport at every participation level.

During his childhood, Phillips helped lead Queen's Royal College to national championships in football and cricket. His emergence as the starting goalkeeper for Maple Football Club also yielded two national championships. He played a key role in the Trinidad and Tobago Regiment's national championship titles in football and basketball. As a goalkeeper, he led Trinidad and Tobago to a third place finish in the 1967 Pan American Games. During his youth, he played for various teams in the United States, collecting a number of accolades, including Coach of the Year and League All-Star.

He later served the Trinidad and Tobago Senior Mens' team as its Technical Director, when they made it to the 2006 FIFA World Cup. While in this role, he introduced the National Coaching Scheme, which certified over nine hundred licensed football coaches. This undoubtedly played a role in the successes of the country's Under 17 and Under 20 teams on the road to qualification for their respective World Cups. He has also established the Lincoln Phillips Soccer School and Goalkeeping Academy in the United States which aids in the development of youth progammes and players.

As a soccer professional in the United States, Mr. Phillips played against Brazilian icon, Pele, skillfully defending his attempts on goal. As a coach, he made history leading Howard University to the NCAA Championship in 1974 (the United States' first historically black university to win the title), with a historic 100% unbeaten record. Coach Phillips later became a member of the United States Soccer Federation (USSF), vastly improving his knowledge on coaching certification. He holds the highest level of coaching certification offered by USSF and was instrumental in preparing US goalkeeper, Tony Meola for the 1994 FIFA World Cup. Off the field, Phillips has been married to his wife, Linda for over fifty years, and he has four sons, and five grandchildren. He holds a Bachelor of Arts and a Master's degree in Physical Education, both from Howard University and has also authored two books: his autobiography, and one on the skill of goalkeeping. His work has also been featured in an ESPN documentary about Howard University soccer between 1971 and 1974.

Phillips remains active in the youth coaching arena and in 2020 created The Lincoln Phillips Alliance for the professional development, employment, and education opportunities for aspiring black football coaches and sport administrators on the collegiate and professional levels.

HONORARY DOCTOR *of* SCIENCES

Mr. JOHN SEYJAGAT

John Seyjagat has over forty years' experience in exotic animal management, with thirty of those at supervisory or managerial level. He is the current Executive Director of the Zoological Association of America (ZAA), prior to which, he was the Curator of Australian Exhibits at the National Aquarium in Baltimore, Maryland. He also served as Director of the Lubee Foundation, a non-profit organisation dedicated to saving fruit bats and their habitats, for thirteen years. John has also worked as Head Zookeeper at the Emperor Valley Zoo in Trinidad.

Mr. Seyjagat has done field conservation work in the Philippines, Malaysia, Borneo, Papua New Guinea, South America, the Caribbean and Australia. He currently concentrates his capacity building efforts in North America, leading and expanding the ZAA; in Australia, partnering with the Territory Wildlife Park in Northern Territory, and in Trinidad and Tobago with the Zoological Society of Trinidad and Tobago as its Director International. He also works with several local NGOs on wildlife and conservation issues.

Having contributed to over 50 bat research projects that generated over 92 scientific publications, Mr. Seyjagat has contributed to copious reptile research projects and has been involved in numerous exhibit design projects including Disney's Animal Kingdom and the National Aquarium in Baltimore's "Animal Planet Australia: Wild Extremes", which won the Association of Zoo & Aquariums Exhibit Award in 2008. he also served as Animal Welfare Officer of the Sustainable Seafood Watch Programme fostered by First Lady Michelle Obama in 2012.

In 2019, Seyjagat was awarded the Hummingbird Medal (Gold) for his contribution to Education and Conservation. Mr. Seyjagat is forever grateful for his career built and founded in Trinidad. As such, he believes in giving back to his country. He expedites and promotes training and career opportunities within the zoo, wildlife, and conservation fields in the USA for fellow Trinbagonians, fostering professional development and technology advancement as it relates to the Exotic Animal field and the conservation of wildlife.

2020
PRESENTATION
of GRADUATES

HONORARY DOCTOR
of LAWS

Mr. L. ANTHONY WATKINS

L. Anthony Watkins is one of the premier Organisational Development consulting minds of Trinidad and Tobago. Experienced in public and private sector transformation and development, he is also knowledgeable in social pathology and corrections.

Watkins graduated from the University of Toronto with a Bachelor of Arts in Psychology and Sociology in 1978. He then went on to lead a distinguished career in various capacities, all contributing to the development of his homeland. He began his work life as a teacher at Tranquility Government Secondary, worked at various organisations in the criminal justice system of Toronto, Canada and returned to roles at the Ministry of Education of Trinidad and Tobago and the University of the West Indies.

Watkins has published articles on his consulting practice related to business development and human resources and continues to make conference presentations on similar topics. He has served as a Board Member for various entities, including the Trinidad and Tobago Public Service Commission and Caribbean Industrial Research Institute (CARIRI). Currently, he is Chairman of the Prime Minister-appointed Community Recovery Committee, selected to evaluate and design a path forward for local communities earmarked for socio-economic support and development.

In 2019, he was awarded the Public Service Medal of Merit Gold for Public Service to Trinidad and Tobago.

2020

PRESENTATION of GRADUATES

GRADUATION MESSAGE 2020

THE FUTURE IS YOURS

Graduation signifies freedom, partying, sighs of relief, optimism, putting dreams and plans into action; however, reality finds you in the throes of a pandemic, with your behaviours regulated, and no assurances about the future. As millennials experiencing world-wide recession, you are achievement-oriented, confident, ambitious, have high expectations, and not afraid to challenge authority. How do graduates adapt their mindset to this new environment? Keep the first three personality characteristics but (1) temper your high expectations. Young people walk off jobs complaining that their bosses exploit them, with no compensation for overtime; however, in these times half a loaf is better than none; something is better than nothing, even if it is less than expected. Rethink how and when you choose to challenge authority. As a graduate, two personality characteristics you must nurture are: resilience or the ability to start over in spite of disappointments, and patience as patience can form part of an effective strategy.

Consider the following situation: A position becomes redundant. The Manager apologises; however, it is their final decision. Now jobless, an Administrative Assistant goes home, cries and snacks. Months later, she does not leaves her messy apartment, or answer the phone. Laying on the couch, she they looks around. There, on a shelf is her professional digital camera, a gift from her parents. She smiles as she remembers her love for photography. As she holds the camera there is a knock on the door. She answers it. A friend has been trying to connect with her and decides to come to her house. Sensing the situation, her friend offers to clean up and takes her to dinner.

“THE ONLY WAY TO PREDICT THE FUTURE IS TO CREATE IT.”

Peter Drucker

The friend is applying for a job and must submit photos of herself. She offers to help her friend, saying “I can do it!” A photo shoot is arranged and photographs are submitted. The company asks about the photographer as the photos are the best that they have seen. An interview follows with a short probationary period where she is invited to photograph models for magazine covers and advertisements. During this time, her creativity excels. In her anxiety to get a job to pay the bills, she forgets she is talented and creative. On her way to a new job, she meets her previous manager. All she could say was “Thank you.” Being fired, then receiving her friend’s support helped reclaim her talent to create her own future.

Introspect. Be true to yourself! Diversify! What talents and skills do you have to help pay the bills, while you wait for an interview? Friends support each other, you all might be able to create a business which will help pay the bills and make a difference in the community. Do not worry, be happy, and claim all the best that this life has to offer you.

THE ALUMNI OATH

As alumni of The University of Trinidad and Tobago (UTT), we solemnly swear to uphold the honourable traditions of our University.

Imbued by the spirit of innovation and entrepreneurship which are at the centre of UTT's Mission, we will endeavour to lend creativity and passion to all that we undertake.

As graduates of the national University, we also commit ourselves to the highest standards of service to our community and country. We will further strive to earn our own place among UTT's alumni who, by their devotion to these ideals, have brought recognition and honour to our alma mater.

We will provide moral, intellectual and financial support and will encourage others to attend our alma mater and thus to contribute to the perpetuation of the necessary and noble work of UTT.

UTT

THE UNIVERSITY OF TRINIDAD AND TOBAGO

ALUMNI ASSOCIATION

It's all about U ...only better!
