

## CLASS REPRESENTATIVES

*Food Science and Technology*

## *Ms. Amanda Heetai*

**CLASS REPRESENTATIVE  
BSc YEAR 1 – FULL TIME**

My name is Amanda Heetai, I am profoundly dedicated and ambitious with intentions in making a positive difference, and I'm willing to put in whatever time it takes to make the BSc Food Tech class, by extension, UTT, a place for us all to learn and grow. I will be ready and willing to listen to the ideas of others and am not afraid to voice my opinion and stand up for what I believe. Remember, no voice goes unheard.

## *Ms. Zahra Benjamin*

**CLASS REPRESENTATIVE  
DIP YEAR 1 – FULL TIME**

My name is Zahra Benjamin and I am one of the chosen class representatives. I believe I can handle this task because I take all of my responsibilities very seriously, I'm a good communicator and I am a positive influence. I can only say these things to you but I hope my actions prove to the students that I am fit for the job and that I possess the qualities mentioned above.

## *Ms. Kellonia Mc Guire*

**CLASS REPRESENTATIVE  
BSc YEAR 2 & 3 – FULL TIME**

My name is Kellonia Mc Guire. I enjoy playing sports such as football, badminton and netball. I consider myself to be an all rounded, outgoing, very dedicated, kind-hearted and no nonsense person.

I often find pleasure in giving motivational advice to those in need and striving for perfection.

With these qualities, I believe I am, and have been, the best fit to represent my class since 2012.

## *Mrs. Gilean Romany-Baptiste*

**CLASS REPRESENTATIVE  
CERTIFICATE YEAR 1 – FULL TIME**

My name is Gilean Romany-Baptiste. Currently, I am a Registered Phlebotomy Technician with the American Medical Technologies and an aspiring Nutritionist; a goal that will be more attainable with the help of The University of Trinidad and Tobago's Certificate in Food Technology programme.

Being a responsible individual, I strive to do my best in whatever I do. As the class representative; this will continue to allow me to display my maturity and responsibility toward my fellow students.

## *Mr. Declan Monderoy*

**CLASS REPRESENTATIVE  
DIPLOMA YEAR 2 – PART TIME**

My name is Declan Monderoy. As a youth, I was always involved in the community and I thought about leadership, teamwork, honesty, integrity and loyalty despite growing-up the hard way.

I honestly think I am the best person for the position as I interact, socialize and communicate with everyone in the Diploma class.

## *Ms. Faithe Best*

**CLASS REPRESENTATIVE  
DIPLOMA YEAR 2 & 3 – FULL TIME**

The reason why I think I'm fit for this job is that I am very good with people, I have a lot of experience with high positions in my past work places. I also know how to deal with situations when it comes my way. I believe in thinking outside the box in anything, also giving people chances, reason being is that not everyone is perfect and a lot of people go through and experiences differently so you sometimes have to give people the benefit of the doubt.

So these are some reasons why I think I am fit for this position. The key thing in being a good leader is being able to take criticism and use it as your motivation to do better.

## *Ms. Melissa Andrews*

**CLASS REPRESENTATIVE  
BSc. YEAR 1 & 2 – PART TIME (VALSAYN)**

For the past three years, I have been the class representative for the Diploma in Food Technology programme, and, this year, I was again chosen until some now refer to me as "my queen".

I have taken pride throughout my life to be an individual who is outspoken yet respectful. Coming from a large diverse family who ALWAYS got along, this taught me and helped me to continuously develop excellent communication skills. I have an authentic personality and like to speak directly as to create a connection while reaching out to persons. I am enthusiastic about anything I partake in and encourage others to see the positive in everything in spite of challenges. I take honour in keeping my word and things confidential. Being responsible for members of my cohort gives me pleasure to serve with honesty and humility, a gravitational force that has me, today, representing the year one (1) body of Bachelor in Food Science and Technology.

## *Mr. Rajesh Dhanraj*

**CLASS REPRESENTATIVE  
DIPLOMA YEAR 3 – PART TIME**

My name is Rajesh Dhanraj and I attend UTT ECIAF campus, where I am presently pursuing a [Diploma](#) in Food Technology on a part time basis. I am currently employed at the National Schools Dietary Services Limited as a Quality Assurance Officer attached to the Suppliers Inspection Team where my primary function is ensuring that all aspects of food safety, preparation, packaging, storage and serving is adhered to. This programme has provided me with a wealth of knowledge and is now allowing me to conduct my job in a more detailed manner. I have a penchant for being a perfectionist; as such I am always on the lookout for ways to improve upon things that would enhance my productivity.

Due to my present occupation and the knowledge I have gained I feel I am now able to make a more valuable contribution toward the health and wellbeing of those around me. Being elected as student representative for the last two years has also allowed me to grow both professionally and personally, being exposed to the various issues that surround the students that I represent has taught me compassion, empathy and strength. Because of this, I think I have become a better leader.

[Rajesh received the Provost's Leadership Award at the Food Science and Technology Student Award and Appreciation dinner in 2014. This award honoured the student that motivated colleagues or group/s, brought out strengths and talents of individuals in their class or programme and demonstrated initiative and strong leadership skills that may make meaningful contributions.](#)

## *Ms. Ann Marie Isaac*

**CLASS REPRESENTATIVE  
CERTIFICATE YEAR 2 – PART TIME**

My name is Ann Marie Isaac and I am honoured to be the representative for my class. I believe that I am a good candidate to represent my fellow classmates because of my leadership qualities. I have enjoyed my tenure thus far at the University and look forward to graduating in 2016. The programme I am pursuing has made me aware of the many aspects of food and the importance of food safety.
