

THE UNIVERSITY OF TRINIDAD AND TOBAGO

CIVIL ENGINEERING programmes

National Engineering Technician Diploma in **Civil Engineering**

The National Engineering Technician Diploma in Civil Engineering is a practice of Civil Engineering designed to deal, not just with technical issues and efficient design, but all the more with the larger social, economic, and environmental aspects of civil engineering work. The programme has been updated to include such specialist courses and modules as project management, quantity surveying, building information systems management and sustainability.

Bachelor of Applied Science in **Civil Engineering Systems**

The Bachelor of Applied Science in Civil Engineering Systems prepares students to come up with solutions to the challenges of providing the necessities for human life and civil societies, including energy, shelter, water and the infrastructure for commerce in more efficient and renewable ways.
