

MY THESIS COLLECTION

Eterna

Eterna is a couture level exploration of fashion, where garments are crafted like timeless monuments of beauty. Inspired by the grandeur of historic elegance of mid-century couture. This collection presents dramatic silhouettes, opulent textiles, bold colours and sculptural details.

This collection carries aristocratic and high society undertones, a poetic blend of luxury and power. Each piece represents an heirloom, sweeping gowns reminiscent of ballroom opulence, tailored suits that echo architectural history, and statement accessories.

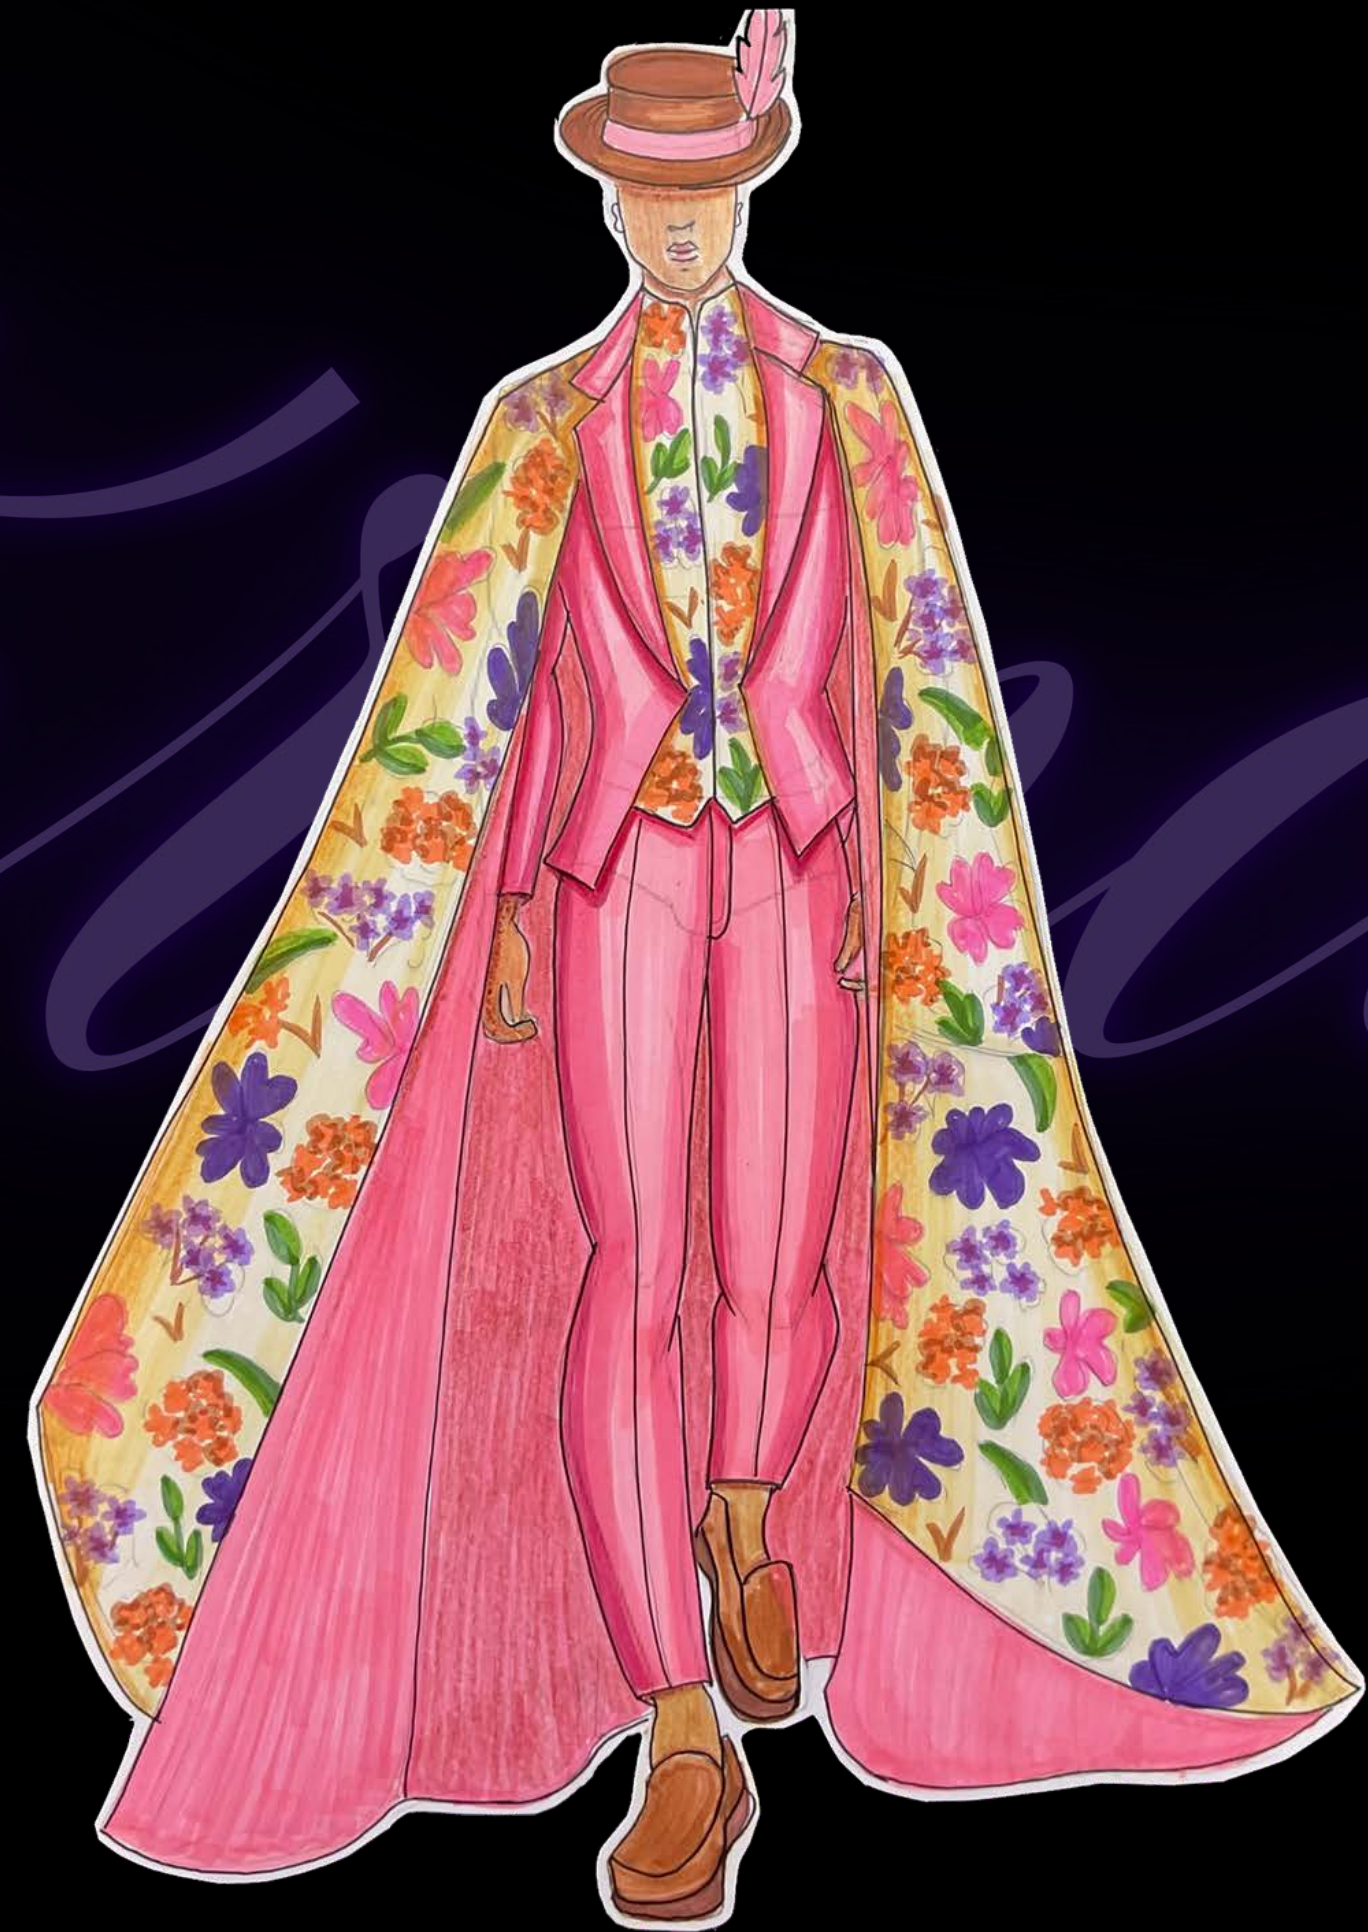

Each look is not just clothing, but an emblem of enduring style, sharp, memorable and unapologetically elegant
